

# BUTTERFLY EFFECT

collection

## The butterfly effect

the collection is a colourful expression of the inherent beauty of a butterfly wing and the small fractal details that make it so extraordinary. The collection features 3 running line patterns in 18 colour ways to provide designers with immense design flexibility. the butterfly effect tile is available in size 61x61.

### One small action...

Think beyond the confines of traditional walls and rooms. Using the full-scale image of a butterfly wing throughout a facility, an entire space becomes an interesting way to unite a large-scale project.

## Sweeping effects
